

Clear Token Single Space Meter

Clear Token provides the safest, most secure wireless platform for mobile parking payments.

Easy and Convenient for Driver

- Displays time purchased by cell phone-parking app.
- Use our Smartphone application, no cash needed.
- This device can be used as an i-Beacon.
- No buttons to press to operate meter.
- Front of unit can display parking regulations or advertising.
- Batteries last for at least 5 years
- No processing charges for credit cards.
- Operates reliably under a wide range of environmental conditions: humidity, snow, sleet, rain, road grime, and street vibrations.
- Supports simple linear and complex dynamic rate structure.
- Cost effective – once paid for, meters have very little overhead and operating costs.
- Very easy for handicapped drives to operate – No ADA issues, since everything can be done from their vehicle.
- No need to find a working meter, you can even park at a broken meter.
- No waiting or queuing to pay Meter.
- Receive a warning before parking session is over.
- Can be used for other than metered parking applications including:
 - Permit Parking
 - Residential
 - Rail, Airport, Beach
 - Congestion Pricing
 - On & Off Street
 - Prepaid and Event Parking
 - VIP Parking
- Park prior to parking regulations starting, and have your unit work and only charge after the regulations go into effect.
- Time left is shown on Smartphone and can be extended.

Reduced Costs

- No cash handling at your meters.
- Less use of paper than at Multi Space meters.
- Space usage and availability reports provided by Clear Token.
- Understand customer needs and parking patterns.

Enforcement

- For vehicle enforcement patrols the unit has a PAID indication street facing side of the unit.
- Enforcement personnel do not have to look up all paid by cell transactions.

Unit Cost

- \$499.95 plus \$5 per Month for \$60 yearly maintenance & license Fee.
- 10 year total cost less than \$ 950.00.

A connection to the Internet is NOT required.
